# Portfolio Discussion

This offering represents a generational opportunity to acquire a true trophy portfolio in one of the strongest and most resilient coastal markets in the U.S. Prior to Hurricane landfall, the three communities were fully leased and generating more than \$25 million in annual gross revenue.

Historically, this portfolio operated with nearly 100% park models or long term stays, including a meaningful percentage of manufactured housing units. Today, the smallest of the three communities is once again fully leased for the winter season, achieving monthly rates of \$1,500–\$2,000. The remaining two communities are actively selling new park models and MH units while re leasing transient inventory, signaling strong demand recovery.

Ownership has invested approximately \$80 million to restore the communities to pre-hurricane condition. All new homes are built to FEMA and county code, generally resulting in elevation at about 5’ above grade. Reconstruction was guided by FEMA’s 50% rule, requiring reuse of portions of the existing structures where feasible. However, all mechanical and electrical systems were rebuilt and elevated to the maximum height permitted by code, improving the resiliency against future flooding and storm surge events.

Across the portfolio, sites feature pavers/new pavement, and the quality of construction and improvements reflects a best in class standard consistent with the scale and location of the assets. With the heavy lifting complete, the next owner’s focus will be on accelerating park model and MH sales and could generate additional revenue by completing the final amenities. In the interim, annual RV tenants can be brought in for \$10,000-\$15,000 per year, and vacant pads can be leased to transients, generating \$6,000–\$8,000 per winter season.

The surrounding market is experiencing a strong resurgence. Restaurants, retail, and local amenities are vibrant once again, and nearby communities are reporting increased home sales. Tourism in the county has rebounded sharply, with visitor counts up 10–15% year over year, and November home sales posted a 14.3% annual increase – further reinforcing the depth of demand for affordable coastal living.

OFF-SITE MANAGEMENT FEES				
- Budgeted to remain at 4.0% of EGI				
GLOBAL EXPENSE GROWTH
